INTRODUCTION

Thank you for purchasing this Nauticam product.

Before using the product, please read this manual thoroughly to familiarize yourself with full scope of functions on the product as well as ensuring that you will use the product correctly.

PACKAGE CONTENTS

Make sure that you have all the included items listed below before using this product. If some items are missing or damaged, contact your local Nauticam dealer.

NA-R5II

(2 x Handles with Mounting Balls, 1 x Housing Cap, 2 x Optical Fiber Mount Caps, 2 x Stainless Steel Handle Brackets)

Padded Travel Case

Allen key set

Lubricant

Panasonic CR2032 Battery

(pre-installed for Moisture Alarm)

Spare Main O-ring
#90121

After purchase, we suggest that you reuse all packaging materials for future travelling.

O-ring Remover

IMPORTANT INSTRUCTIONS

1

Water-tight test of the housing (without camera inside) before usage is recommended as well as any O-ring renewal and port change.

2

Do not seal the housing when travelling by air as this may lead to a pressure difference between the atmosphere and inside the housing.

3

Only the accessories specified by Nauticam must be used. Third-party accessories may result in malfunctions or damage to the product.

4

Use only Nauticam lubricant on silicone rubber O-ring.

5

Do not stretch any O-rings excessively. Only remove it using Nauticam O-ring remover.

6

Discontinue use immediately when there is a sign of leakage.

7

Do not attempt to remove parts of the housing yourself. Repairs must be done at authorized service centers only.

8

The housing should be positioned on the a stable and safe surface on land.

9

Do not expose the housing in direct sunlight for a prolonged period.

10

Do not open the housing in wet or sandy environment. Protect the housing from moisture and debris in order to prevent malfunction or leakage.

11

Prevent any sand or dust or water penetration inside the housing. Be extra careful when changing lens and inserting or removing the camera.

12

This product is not intended for use by children, or persons with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they are supervised and/or given instruction by a responsible person concerning use of the product to ensure that they can use it safely.

HOUSING MOUNT

Housing mount

Compatible accessories

1	1/4" -20 mounting threads	17959	Housing Mounting ball with 1/4" screws	
2	M16 Accessory port	25625	M16 Vacuum Valve II (Optional)	
3	M10 Accessory port	25221	M10 Strobe mounting ball	
		25224	M10 Strobe mounting ball with hole	
4	M16 Accessory port	25017	M14 6 pin bulkhead for Canon system (incl.M16-M14 adaptor)	Electrical Triggering
		25020	Canon hotshoe plug to a M14 Nikonos bulkhead (incl.M16-M14 adaptor)	
5	M24 Accessory port	25086	M24 adaptor for HDMI 2.0 cable	HDMI 2.0
		25099	HDMI 2.0 cable	
		25033	Standard HDMI bulkhead with M16 thread	HDMI 1.4
		26326	M24-M16 Adaptor for use with 26325	
		25100	HDMI (D-A) 1.4 Cable in 200mm length	
* HDMI1.4 cable can be installed using M24 or M16 accessory port				
6	1/4" -20 mounting threads	17954	Universal tripod plate	
		17960	Universal quadra-pod plate	
7	M5 Threaded holes	25228	M5 Strobe mounting ball	

OPENING THE HOUSING

* drawings as illustrations only

1

depress housing unlock button

2

turn housing lock outward

3

lift up the back housing

CLOSING THE HOUSING

* drawings as illustrations only

1

before closing the housing, clean and lubricate the main O-ring

make sure nothing is caught between front and back housing and that they are fully aligned before locking

2

turn housing lock inward until you hear and feel it click into place

3

housing locked in place securely

PREPARATION FOR USE

* drawings as illustrations only

Installing the Camera - housing tray attachment

1

unlock camera tray lever and
remove the tray from the housing

2

attach the camera tray by tightening
the tray screw into the tripod socket
of the camera

place the actuator on the camera
tray in place and make sure it is
engaged with the camera

3

** pull out the zoom/focus knob if
installing the camera with lens and
gear attached
* please refer to page 11 for lens
installment before sliding in the
camera*

slide the camera tray back into the
housing along the tray rail

4

lock camera tray

** place the zoom/focus knob in
place and make sure it is engaged
with lens gear*

PREPARATION FOR USE

* drawings as illustrations only

Installing the Camera - RF mount/ EF mount lens installment

RF mount lens

make sure the small lever is in vertical position before RF mount lens installment

make sure the small gear engagement knob on housing tray is on the left

EF mount lens

(w/ mount adaptor EF-R)

make sure the small lever is in horizontal position before EF mount lens installment

make sure the small gear engagement knob on housing tray is on the left

EF mount lens

(w/ control ring mount adaptor EF-R)
* 19561 gear is required for this setup

make sure the small lever is in horizontal position before EF mount lens installment

make sure the small gear engagement knob on housing tray is on the right

PREPARATION FOR USE

* drawings as illustrations only

Installing the Camera - RF mount/ EF mount lens installment

EF mount lens

with Canon Drop-in filter mount adaptor EF-EOS R with variable ND filters

remove the original control kit from the camera tray

replace it with 26320 control kit for Canon drop-in filter mount adaptor

rotate the small lever and push the small gear engagement knob to the left to make sure the control kit is engaged with the adaptor for full function

PREPARATION FOR USE

* drawings as illustrations only

Port Mounting

1

depress safety button and rotate anti-clockwise

2

lubricant the port O-ring before mounting

align index mark

push port assembly straight in

3

rotate locking lever clockwise to lock

Do not operate the red lever with force, make sure the port is aligned correctly and pushed in fully and securely

PREPARATION FOR USE

* drawings as illustrations only

Coating housing O-ring

1
remove the main O-ring using an O-ring remover

2
clean the O-ring groove with a cloth and ensure
that it is free from salt or other foreign materials

3
lightly coat it with provided lubricant

4
return the main O-ring by slowly pressing from
one corner to the whole perimeter

PREPARATION FOR USE

* drawings as illustrations only

Setting up moisture alarm

1

remove battery
insulation film

2

press the battery down until it
click into place

3

switch on the alarm
- the moisture alarm
window will flash in
BLUE when it is working
correctly

4

test the alarm
- connect the wires with a
dampened cotton bud; the
alarm will give a repeating
'beep' and the moisture alarm
window will flash **RED**

* please contact our authorized service centers if testing fails
* please refer to page 17 for complete vacuum system guidance

PREPARATION FOR USE

* drawings as illustrations only

Changing lens/port without opening the housing

1

If using with vacuum valve :

remove the cap from the vacuum valve and press the red button to release pressure before unlocking port lock

If using without vacuum valve, please follow from step 2

2

unlock port lock and remove port assembly

3

press the blue button to reset vacuum alarm before replacing port

4

replace port assembly then lock port lock

reset vacuum valve system using hand pump and close the cap after

* please refer to page 17 on complete vacuum system guidance

OPTIONAL ACCESSORIES

1

remove the plug of M16 accessory port from the housing

remove the cap from the vacuum valve

slightly lubricate the o-ring and make sure the o-ring is in place

then tighten the vacuum valve to the housing with the tool provided

2

connect hand pump to the valve and pump several times until it reaches the target vacuum level

close vacuum valve cap

Moisture alarm window colour indication :

Steady Blue		device is turned on
Flashing Blue		standby mode, ready for pumping
Steady Green		target vacuum level is reached
Flashing Yellow		vacuum level is dropping
Flashing Red		vacuum is totally lost, circuit stalled until device is switched off
Alternating Blue and Red		vacuum is totally lost, circuit stalled until device is switched off
Steady Red		out of battery

** It is recommended to leave the housing for at least 20mins to ensure it is sealed. If the LED light changes from steady green light to rapidly flashing yellow light, that means there is a leakage. Please check every O-ring and then conduct the vacuum test again.*

** please contact our authorized service centers if testing fails*

OPTIONAL ACCESSORIES

* drawings as illustrations only

Installing cooling fan set

1

install the cooling fan railing assembly onto the housing as shown

2

unlock the locking lever

then slide the cooling fan system into the tray rail

3

lock the cooling fan assembly

OPTIONAL ACCESSORIES

* drawings as illustrations only

Installing Apple AirTag

1

remove the two screws and take out the Airtag holder cover

2

place the AirTag into the holder

3

close the holder cover

OPTIONAL ACCESSORIES

* drawings as illustrations only

Installing Surface USB-PD Power Bank

1

unscrew the M24 accessory port cap from the camera housing and screw the M24-M16 adaptor into the housing port

2

plug the USB-C Bulkhead into the accessory port, gently push the connection head into the accessory port until it cannot go further then tighten it by turning the locking nut

3

plug the cable into the USB Type-C jack on the camera with camera tray attached before sliding into the camera housing

slide the camera tray into the housing along the tray rail then lock camera tray

4

close the housing gently

plug the power bank with USB Type-C connector into the USB-C bulkhead

OPTIONAL ACCESSORIES

* drawings as illustrations only

Strobe Mounting Ball

Installing M5 Strobe Mounting Ball - **RECOMMENDED**

remove M5 screw with the allen key provided in the housing package

screw #25228 M5 Strobe mounting ball directing onto the M5 thread

** the anti-corrosion screw may also be unscrewed while removing M5 screw, if this is happening, you can separate the parts as shown in the diagram on the left*

Installing M10 Strobe Mounting Ball - Optional

1
remove M5 screw and housing handle screw on the side

2
take out the handle and remove the anti-corrosion screw

3
replace the handle and screw the M10 strobe mounting ball onto the housing as shown

OPTIONAL ACCESSORIES

Installing Viewfinder

firstly remove the pre-installed 0.66x viewfinder from the housing by removing the retainer o-ring inside rear housing

gently push the 0.66x viewfinder from the inside of the housing

remove the retainer o-ring from the viewfinder

align the viewfinder alignment pins with the LCD display window and push the viewfinder into the housing until it cannot go in any further

lightly lubricate the retainer o-ring and place it back from inside the housing

CARE/STORAGE

1

Soak the housing system in fresh water after salt water usage

2

Operate all controls and buttons at least 3 times while immersed in fresh water

3

We recommend cleaning and inspecting the main O-ring each time after diving for any damage and every time the housing is opened.

4

Protect the housing with robust and shock-proof travel case during transportation. Do not travel with camera inside housing.

5

We recommend to ship the housing to our service centers for a complete overhaul after 500 dives/every 3 years.

WARRANTY

All NAUTICAM Housing Products and Viewfinders are warranted against any material and manufacturing defects for two years from the date of purchase for consumer use. NAUTICAM Optical Accessories are warranted against material and manufacturing defects for a period of one year, and HDMI cables carry a year warranty.

This warranty only applies to products purchased from authorized NAUTICAM dealers and does not extend beyond the original retail purchaser.

To return your product for service, please contact your regional authorized service center(s). Please note that this warranty only applies when the product is purchased in the territory where the service center is located.

NAUTICAM accepts no liability for any damage to and defects in the housing caused by improper use and/or poor maintenance; it is the responsibility of the owner to carefully follow the instructions in our manuals.

NAUTICAM does not hold responsibility for damage, of any nature, to any equipment used with and/or placed within our products.

NAUTICAM accepts no liability for any loss of captured images or the inability to capture images even if it is due to the malfunctioning of our products.

Unauthorized modifications and/or repairs of our products will automatically invalidate the warranty.
